9 Glitter mugs

An absolute eye-catcher with a wide range of colours for your creativity! These mugs catch everyone's eye and are the perfect choice for printing with text or graphics in dark colours. A great gift idea for all glitter fans.

25 Enamel mugs

Memories of the good old days come alive with these nostalgically inspired cups made of real steel enamel. Freshly brewed coffee warms the hands - pure campfire romance! Especially for hiking or camping, as these cups are very light compared to ceramic cups, these cups are a perfect fit. Washing out is also a breeze thanks to the hygienic enamel surface.

26

Stainless steel mugs

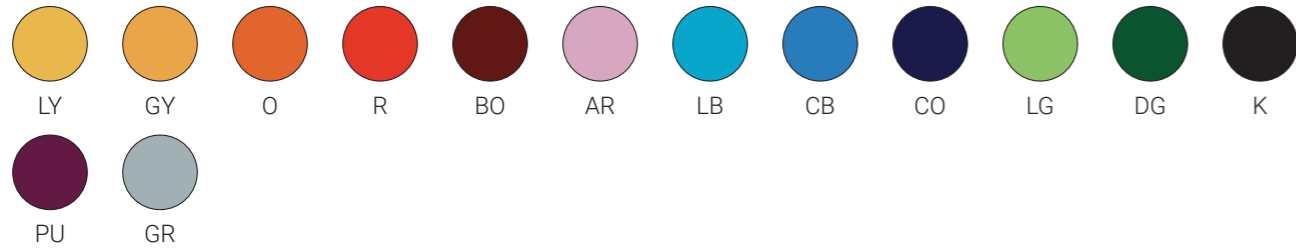

The stainless steel cup with integrated snap hook can be attached to the backpack strap or belt and is ideal for camping or outdoor activities. The insulating double wall is made of stainless steel and is light but still break-resistant.

32 Glitter thermo bottles

Drinking bottles with caps made of stainless steel - keep tight! These printable thermal bottles for sports, leisure or office offer a particularly hot drinking pleasure. The double-wall construction keeps hot drinks hot and cold drinks cold for a long time. They are also a great eye-catcher!

The manufacturing process of enamel cups inevitably involves certain irregularities. These manifest themselves in the form of slight swellings and dents (without loss of enamel) and small black dots on the surface of the cup and on the handle. These enhance the retro look of the cups and do not constitute grounds for complaint.

Tip: It is not without reason that stainless steel is the preferred material in the food sector, because stainless steel is free of soluble pollutants that can be found in other materials. Thus, stainless steel drinking bottles are the safest choice because even acidic drinks such as lemonade cannot absorb any harmful substances.

Absolutely leakproof!

Tip:
These printable thermal bottles for sports, leisure or office offer a particularly hot drinking pleasure. The double-wall construction keeps hot drinks hot and cold drinks cold for a long time.

Drinking bottles in the shape of a cone are very trendy. They are handy and slim and fit in almost any bag.

- White ceramic beer mug with 3 gold lines
- With or without tin lid
- Excellent straight and even surface
- Hand rinsing recommended
- Height 180 mm, Ø 84 mm, 660 g

Beer mugs with lids are often offered with aluminium as lid material. Not so in our assortment. We only use **real pewter lids** because the visual difference is significant and because a pewter lid sits snugly on the beer mug due to its higher mass, offers a better feel and does not rattle when moved.

Breathable fabric • Anti-odour function
UPF50+ sun protection

Here's what's in this shirt:

UPF50+

The fabric is equipped with SOLAR BLOC sun protection technology to keep harmful UV rays away from the skin. The UPF50+ thus blocks 98% of harmful UV-A and B rays.

M-SHIELD

Similar to a deodorant, the formation of odour through perspiration is slowed down due to the "M-Shield" integrated in the textile. The fabric is already treated with a zinc-based mixture during production and the effect does not weaken even after multiple washings.

PURE-TECH™

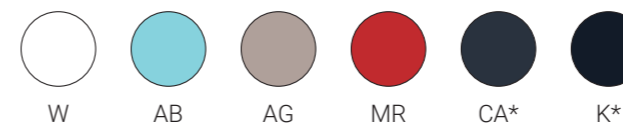

Thanks to this special weave, the fibres help the body regulate heat. Wash after wash, PURE-TECH™ stands up to the toughest sporting conditions.

Vapor Shirts

- UPF50+ integrated protection from UV-A and UV-B rays
- Breathable, lightweight and comfortable
- Long-lasting protection against odour
- Heat regulation

Solar Shirts

Modern textiles offer more than ever before. For example, the tops in the Solar Shirts collection provide excellent sun protection thanks to a UPF50+ (Ultraviolet Protection Factor) and additional performance features that provide an ultra-high wearing comfort.

The Solar Shirts keep 98% of the sun's harmful rays away from the skin and are also breathable, lightweight and comfortable. The effectiveness of the UPF50+ is certified by the "Skin Cancer Foundation" seal of approval. In addition, the Solar Shirts offer long-lasting protection against odour. Similar to a deodorant, the "M-Shield" integrated into the textile slows down the formation of body odour. But unlike a coating with silver ions, the protection of the Solar Shirts is permanently integrated into the fibres and is not weakened even by repeated washing.

The solar shirts offer optimal fabric properties for finishing with sublimation printing. Finishing with DTF transfer or foil transfer is also possible, which leads to excellent results especially on darker colours.

The long sleeve Solar Shirts are ideal for people who work outdoors, for water and coastal athletes, for adventurers and for everyone who loves activities with high physical demands. Due to the possibility to print the shirts individually, they gain a very high value as gift item, sports- and workwear or for team sports equipment.

Bags & Wallets

102 Backpacks

Backpacks are indispensable in everyday life! Not only for school, but also for work or leisure. With a photo or a cool graphic, this gift always goes down well and makes for an individual appearance.

108 Wallets

It's not just the inner values that count here. Individually printed wallets are always a welcome gift. Adults in particular like to have the pictures of their loved ones with them. In this case, not only in the wallet, but also on it.

100 Beach bag

Of course, a beach bag printed with your favourite photo is a must for a trip to the beach or lake. But it also looks great in everyday life and is a beautiful eye-catcher.

102 Shoulder bags

The classic companion, wherever the road takes you. The shoulder bags have a printable, replaceable front flap. The flap is attached to the bag with a Velcro fastener. Depending on the season, occasion, matching outfit or the shape of the day, the bag can be adapted in no time at all.

For indoor use

Photo boards made of aluminium are particularly suitable for high-quality indoor photo displays. The extraordinary surface makes memories of past holidays or shared hours appear in brilliant colours and with a special sharpness of detail.

152 For outdoor use

Ideally suited for outdoor applications such as enclosure and warning signs as well as shop or menu signs. High scratch resistance makes these photo boards ideal for outdoor applications and can show off more than just a company logo.

Aluminium panel

For indoor and outdoor use

Duraluxe aluminium photo panels are perfect for **outdoor** applications (e.g. grave signs, lettering, architecture, parks, shop signs, urban planning, corporate signs, etc.). They have a high scratch resistance and can be drilled, bent or cut without damage to the edges.

The powder coating is non-combustible*. Duraluxe panels are approved for fitting to structures that are required to adhere to LEED certification**.

*The powder coating has been tested for flammability and burning behaviour. The test according to Building Construction and Safety Code® (NFPA 5000) showed: Non-combustible.

**LEED qualified by Eurofins Product Testing A/S in Denmark.
